PICMONKEY Tutorial

I want to take you through a VERY easy, simple, and fast way to edit your everyday photos using PicMonkey. This edit tutorial is going to be a very easy way to edit that you could do to any photo. PicMonkey offers lots of neat effects that can turn your photos into fun pieces.
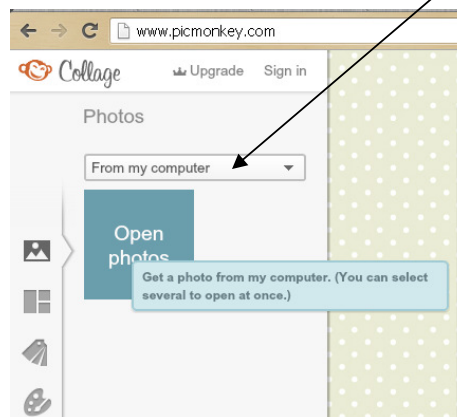

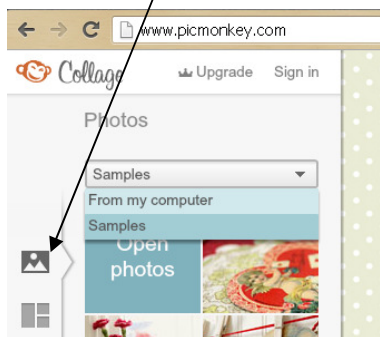

So go to www.picmonkey.com

How to create a collage

1) Simply click ont he „Create a Collage" button to start.

2) Select the Photos you want to use for your collage by clicking on the Samples button. Select From my computer to find and add your photos.

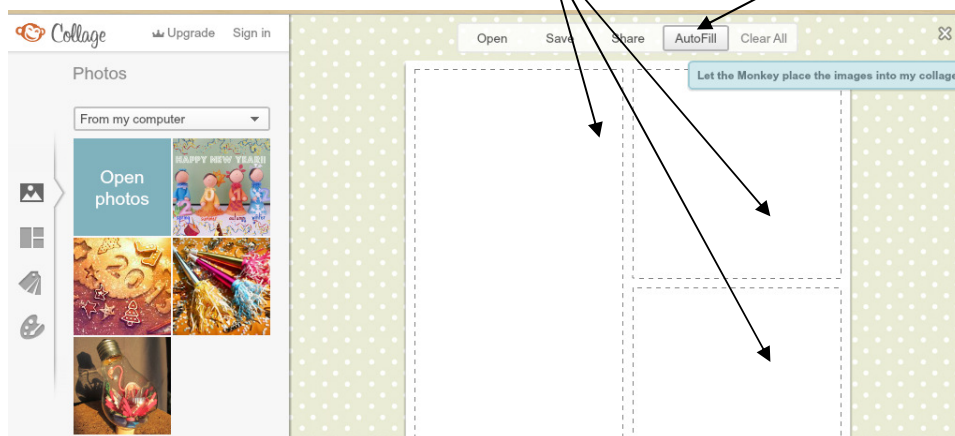

3) You can select more pictures at once. Open

4) You will see that all the pictures you selected are on your list . If you push the <u>AutoFill</u> button, the program will automaticly put the pictures in the <u>empty places</u>.

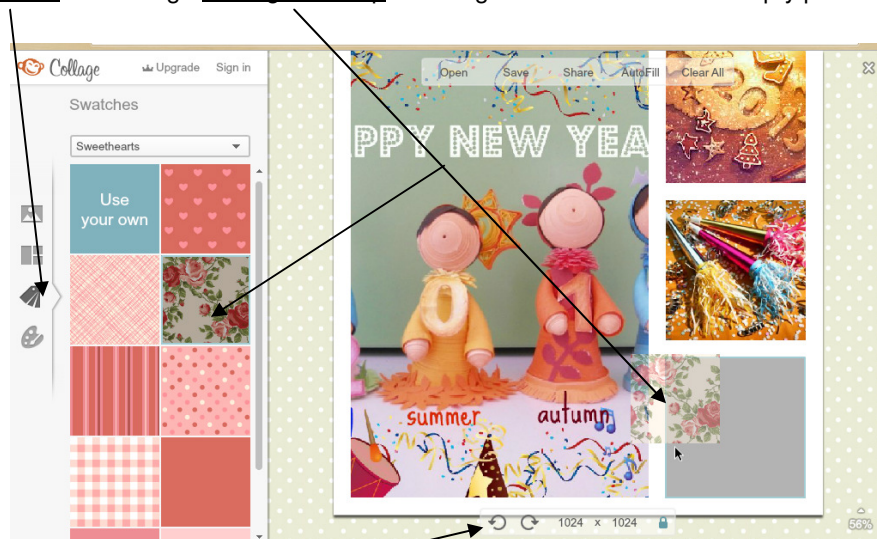

5) If you need want to use more pictures then 3 here is how you can do it: go to the <u>dashboard/menu</u> and select <u>Layouts</u>. There are many kinds of settings, with different numbers of layouts you can choose…select the one you like the most. (the one below is an example, I used <u>L-egant</u> and <u>Biggie-Smalls</u>)

6) If you need more pictures to fill in the empty spaces, you can go back to <u>Photos</u> to upload more or go to <u>Swatches</u> to select a nice image from there.

7) In <u>Swatches</u> it is enough <u>to drag and drop</u> the images from the list to the empty places in your collage.
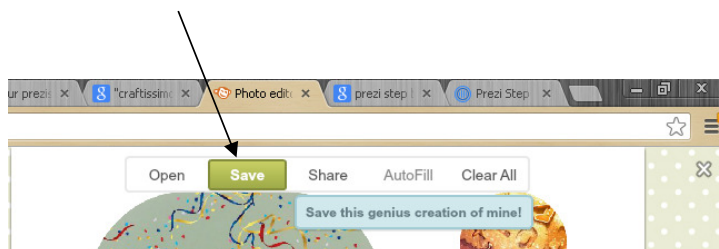

8) You can <u>turn your pictures</u> with these buttons and Zoom your collage <u>here</u>.

9) The last button on your Dashboard is to play with the <u>Background</u> settings. Here you can make more space between photos with <u>Spacing</u>, round the corners of the pictures with <u>Corner rounding</u> or filling the color between your pictures with <u>Color</u>.
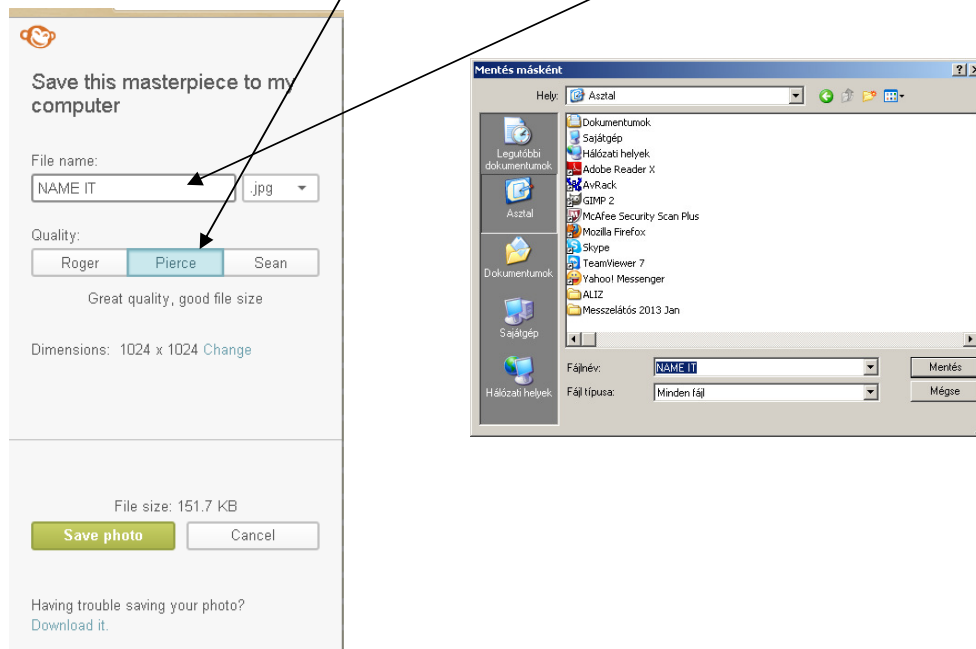

10) To save your pasterpiece click on the SAVE button

11) For a good quality, Save your collage in Pierce quality. Don't forget to name your picture ☺

Tadaaaa!!! Your collage is ready ☺

But there is more on Picmonkey for you!!!

The saved picture with your collage can be edited and you can add text to it ☺

Check the 2nd tutorial and don't be affraid to experiment, be CREATIVE!

Once you are done post it on the "Craftissimo" Facebook group!

Thank you
